SECOND OPINION CONSULTATIONS

Dear: _____ Date: _____

In order to expedite your second opinion consultation, please review the following directions:

You may pick up a copy of your office chart, including copies of our office progress notes, copies of imaging, laboratory and pathology reports from our office. We will provide you with one copy of your records and if you are seeking opinions from more than one physician, please copy the packet that we provide to you, keeping a copy for yourself as well as sufficient copies for the number of physicians that you will be seeing.

Most doctors rendering a second opinion will need to review the actual x-ray films and pathology slides themselves. Therefore, please refer to the following list and contact the appropriate facility so that you may pick up the information to hand-carry with you at the time of your appointment or arrange to have the appropriate facility send the information directly to the physician providing the second opinion consultation.

1. X-Ray and CT Scan Films:

Danbury Hospital Film Room: 797-7275
Northeast Radiology (845) 278-6200
Housatonic Valley Radiology Associates: (67 Sand Pit Rd.): 797-1770
Southbury Diagnostic Imaging: (203) 267-5800

2. Bone Scan/MRI Films:

Danbury Hospital Nuclear Medicine Department: 797-7222
Northeast Radiology: (845) 278-6200
Housatonic Valley Radiology Associates: (67 Sand Pit Rd.): 797-1770

3. Pathology Slides:

Danbury Hospital Department of Pathology: 797-7453
Dianon: 1-800-328-2666
Quest: 1-800-982-6810
